

```
bandit0@bandit:~$ cat readme
Congratulations on your first steps into the bandit game!!
Please make sure you have read the rules at https://overthewire.org/rules/
If you are following a course, workshop, walkthrough or other educational activity,
please inform the instructor about the rules as well and encourage them to
contribute to the OverTheWire community so we can keep these games free!

The password you are looking for is: ZjLjTmM6FvvyRnrb2rfNWOZOTa6ip5If

bandit5@bandit:/inhere$ man find
bandit5@bandit:/inhere$ man find | grep size
A numeric argument n can be specified to tests (like -amin, -mtime, -gid, -inum, -links, -size, -uid and -used) as
-size n[cwbKM]
The size is simply the st_size member of the struct stat populated by the lstat (or stat) system call, rounded up as shown
The + and - prefixes signify greater than and less than, as usual; i.e., an exact size of n units does not match. Bear in
mind that the size is rounded up to the next unit. Therefore -size -1M is not equivalent to -size -1048576c. The former
filesystem block size this is usually greater than %s/512, but it can also be smaller if the file is a sparse file.
filesystem block size this is usually greater than %s/1024, but it can also be smaller if the file is a sparse
% File's size in bytes.
% File's sparseness. This is calculated as (BLOCKSIZE*st_blocks / st_size). The exact value you will get for an or-
512 bytes. If the file size is zero, the value printed is undefined. On systems which lack support for st_blocks,
sizes, modification times and so forth. File names are a potential problem since they can contain any character except '\0' and
The primaries -atime, -ctime, -depth, -exec, -group, -links, -mtime, -nogroup, -nouser, -ok, -path, -print, -prune, -size,
Determines the block size used by -ls and -fls. If POSIXLY_CORRECT is set, blocks are units of 512 bytes. Otherwise they
\(-size +100M -fprintf /root/big.txt '%-10s %p\n' \)
bandit5@bandit:/inhere$ find . -size 1033c
./maybehere07/.file2
bandit5@bandit:/inhere$ cat ./maybehere07/.file2
